DETAILED ACTION

1. The applicants canceled claims 1-27 and added new claims 28-54 in the amendment received on 3/7/07.

The pending claims are 28-54.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 28-47 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 28 recites only nonfunctional descriptive material, such as a component table and a plurality of component-specific tables, which are mere arrangement of data. Thus, claim 28 is non-statutory. See MPEP 2106.01. Claims 29-40 are likewise rejected.

The claims 41-47 lack the necessary physical articles or objects to constitute a machine or a manufacture within the meaning of 35 U.S.C. 101. They are clearly not a series of steps or acts to be a process nor are they a combination of chemical compounds to be a composition of matter. As such, they fail to fall within a statutory category. They are, at best, functional descriptive material *per se*.

Allowable Subject Matter

4. Claims 28-47 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, provided that the claims are not broadened in scope.
5. Claims 48-54 are allowed.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joon H. Hwang whose telephone number is 571-272-4036. The examiner can normally be reached on 9:30-6:00(M~F).
